

About CLEF

The Cross-Language Evaluation Forum (CLEF) supports global digital library applications by (i) developing an infrastructure for the testing, tuning and evaluation of information retrieval systems operating on European languages in both monolingual and cross-language contexts, (ii) providing a forum for the discussion of results, and (iii) creating test-suites of reusable data which can be employed by system developers for benchmarking purposes.

CLEF 2006 is partially supported by the
DELOS Network of Excellence on Digital Libraries
www.delos.info

The CLEF Workshop is sponsored by the University of Alicante
